About

Constellations is a Quebec startup that offers a new accommodation Experience through local developed, eco-responsible and self-sufficient product. The company is based in Lachute where its first product the Kujuk is prefabricated.

With an architectural style based on sacred geometry and more specifically the mandalas, our goal is to create a modern, off-the-grid space, combining simplicity and high end materials. The Kujuk is fully optimized for its environment to welcome adventurers and star dreamers.

The Kujuk

The Kujuk is partially prefabricated with materials eco-responsible and construction techniques that minimize CO2 emissions and waste of material related to production. The start-up values eco-responsibility and will increase usage of eco-responsible materials in its production as it progresses. From its exterior structure to the interior finish, the Kujuk offers its occupants a toxic-free environment.
